Knox City Council Audit Committee

Annual Report 2017-2018

Message from the Chairperson

It is with pleasure that I submit the 2017-18 Annual Report for the Knox City Council Audit Committee, as required by the Committee's Terms of Reference.

The key purposes of this report are to:

- Increase awareness of the purpose, role and objectives of the Audit Committee;
- Act as a communication link between the Internal and External Auditors and Council;
- Outline the key achievements of the Audit Committee; and
- Provide the Council with information on the future objectives of the Committee.

The Councillor membership of the Audit Committee at the commencement of the 2017-18 financial year comprised Councillors Darren Pearce, Jake Keogh and Tony Holland. The membership remained the same following the 2017 Statutory Meeting of Council and appointment of Committee members.

During 2017-18, the City's internal auditors, DFK Kidsons, supported the Audit Committee with a program of separate Internal Audit reviews. Council and the Audit Committee acknowledge the continuation of Crowe Horwath this financial year as external audit agents of the Victorian Auditor General's Office.

The external auditors play a key role in providing the Audit Committee with confidence that the annual financial audits fully reflect the financial performance of Council.

In addition to the formal audit program, the Audit Committee provides an active oversight of Council's risk management framework. Quarterly status reports of Council's Risk Register are received to ensure that Knox's exposure to organisational and strategic risks are being managed appropriately.

The Audit Committee receives Council's quarterly finance reports to ensure that any financial risks are being appropriately managed.

As highlighted in the achievements section of this report, I believe the Audit Committee has performed a valuable oversight role for Council during 2017-18, assisting in Council's accountability, internal controls, risk management and statutory obligations. It is a very productive and engaged Committee, adding value through the diverse experience and knowledge of its members.

The Audit Committee is of the view that Council's financial, governance and risk control environment and associated systems are largely strong. Continuous improvement in these areas has been evident in the internal audit reviews and management reports, and our objective is to enhance and build further capacity and capability from a governance perspective during 2018-19.

On behalf of my Audit Committee members, I would like to express sincere thanks to the Victorian Auditor General's appointed external audit agents, Crowe Horwath, Council's internal auditor DFK Kidsons Pty Ltd and all Council officers who have assisted the Audit Committee in a professional manner during the year.

I also wish to thank Council's Chief Executive Officer, Tony Doyle; the Director Corporate Services, Michael Fromberg; and the Manager Business and Financial Services, Dale Monk for their valued support and assistance.

Finally, I thank all my fellow Audit Committee Members for their participation, diligence, professionalism and contribution throughout 2017-18.

I commend the Annual Report to Council.

Ms Linda MacRae
Independent Chairperson
Knox City Council Audit Committee

7. RELEVANCE TO KNOX COMMUNITY AND COUNCIL PLAN 2017-2021

The establishment and operation of Council committees is a key enabler for the achievement of the goals and objectives contained in the Knox Community and Council Plan 2017-2021. While the goals are interlinked, the Environment Advisory Committee will particularly focus on the first four goals, with the City Futures Advisory Committee providing input across all eight goals.

ALL WARDS**4. CONTRACT NO.2109 – RECEIPT OF RECYCLABLES**

SUMMARY: *Coordinator – Waste Management (Geoff McMeeken)*

This report considers a proposed variation to Contract No.2109 – Receipt of Recyclables, as a result of the collapse of the recycling commodities market and recommends acceptance of the variation for the contract extension period from 1 July 2018 to 30 June 2021.

RECOMMENDATION

That Council

1. **Agree to enter into a deed of variation with SKM Recycling for Contract No.2109 – Receipt of Recyclables for the period from 1 July 2018 to 30 June 2021 in line with terms presented in the attached confidential report;**
2. **Delegate to the CEO the responsibility to finalise and execute the deed of variation.**

1. INTRODUCTION

A confidential report was presented to the 14 May 2018 Strategic Planning Committee meeting of Council to consider proposed variations to Contract No.2109 – Receipt of Recyclables, as a result of the collapse of the recycling commodities market.

In considering the report Council resolved in part:

From 1 July 2018 to 30 June 2021

- *Enter into negotiations with SKM to develop a pricing model comprising a fixed price or gate fee component to cover operating costs and a variable or income sharing component based on commodity sales achieved.*
- *This model is to be developed and ratified by Council prior to 30 September 2018 and will apply retrospectively from 1 July 2018.*

This report provides Council with advice on the negotiations with SKM on development of a pricing model for the receipt of recyclables from 1 July 2018 to 30 June 2021.

Adoption of a pricing model by 30 September 2018 is a requirement of the relief package provided by the Department of Environment, Land, Water and Planning to fund the cost for receipt of recyclables between March 2018 to June 2018 inclusive.

2. DISCUSSION

2.1 Pricing Options Presented

In May 2018, SKM presented three pricing options to Council. The options are for the receipt and processing of recyclables at an SKM facility.

Option 1 – No Risk

- Council pays a fixed rate that is subject to a charge for contamination costs and annual CPI changes.

Option 2 – Balanced

- Council pays a variable rate (or receives a rebate) which is linked to a paper price benchmark so a higher benchmark rate would result in a reduced rate paid by Council. This option is subject to a charge for contamination and annual CPI changes and is capped.

Option 3 – Floating Price

- This is same as Option 2 but the rate paid (or rebate received) is not capped.

Specific details and officer comment on the pricing options is presented in the separate Confidential report.

2.2 Independent Assessment of SKM Pricing Options

The local government peak body, Municipal Association of Victoria (MAV), have also been a party to the negotiations with SKM on development of a pricing model. SKM has consented to providing information to MAV's accounting representative, Ernst & Young, in order to provide independent verification of the pricing scale. This has been limited due to commercial sensitivities.

This will not influence the recommendation contained in this report.

2.3 Ministerial Approval to Enter into Contract Variation

Ministerial approval has been obtained through Local Government Victoria for Council's to vary their receipt of recycling services contracts without re-tendering as would normally be required under Section 186(5) of the Local Government Act 1989. This applies to the period from 1 July 2018 to 30 June 2020.

Advice from Local Government Victoria is that Knox will need to make individual application for exemption to cover the period from 1 July 2020 to 30 June 2021, and this was submitted in August 2018.

2.4 Contamination

Each of the options presented by SKM Recycling now include a charge for the management of contaminated product in the material received at the processing facility. This is a new charge as a contamination charge was previously only applied when the contamination level was above 15% by weight of the material delivered, and to date had not been pursued by SKM Recycling under the terms of the existing contract.

The contamination percentage to be applied will be based on an annual audit of the product by an independent company. This percentage will be applied to the quantity of material delivered and will be multiplied by a combination of:

- Landfill Cost
- Transport Cost
- Processing Cost

SKM are yet to undertake audits on the Knox recyclables to determine a contamination percentage.

Negotiations have been undertaken with SKM on the implementation of the contamination charge and the outcome of this is presented in the separate confidential report.

The contamination charge will also require an in depth review of Council's waste education program for our community as we have not previously been charged for contamination. It is equally acknowledged that the State Government through Sustainability Victoria has a significant role to play. With an estimated \$500 million in the Sustainability Fund, comprising funds collected through the landfill levy, there is a significant opportunity for the State to lead the education of community in a consistent manner, to ensure that recycling behaviours remain embedded.

2.5 Deed of Variation

SKM have presented a Deed of Variation for signing by both parties. The Deed outlines the details of Option 1, being Council's preferred option and is presented in the separate confidential report.

Once ratified this Deed will take precedence over the previous Deed endorsed by Council at its 14 May 2018 Strategic Planning Committee meeting.

3. CONSULTATION

Consultation has been undertaken with representatives of SKM, Metropolitan Waste and Resource Recovery Group (MWRRG), Municipal Association of Victoria (MAV), and other Melbourne Metropolitan Councils.

4. ENVIRONMENTAL/AMENITY ISSUES

The collection, transport and disposal of waste collected across the municipality has significant environmental and amenity issues.

The separation and diversion from landfill of recyclables and green organics has significantly reduced the quantity of waste going to landfill which has the flow on effect of reducing greenhouse gases and reducing raw material usage.

The Receipt of Recyclables Services contract is an essential link in reducing the recyclable products from going to landfill.

5. FINANCIAL & ECONOMIC IMPLICATIONS

5.1 2018-2019 Financial Year

Provision has been made in the operating budget for the 2018-2019 financial year for a gate fee for receipt of recyclables of \$60 per tonne (excluding GST).

The pricing options presented by SKM also includes a charge for managing contaminated product. This was not determined at the time of setting the 2018-2019 budget and will need to be accounted for through the annual budgeting process.

6. SOCIAL IMPLICATIONS

The waste management service provided by Council to the Knox community is viewed as very positive particularly in relation to kerbside recycling where residents see the value in separating recyclables so it is diverted from landfill and is able to be reused.

Recent media attention has suggested recyclables may need to be landfilled however, this is not seen as a responsible option and is not being considered.

7. RELEVANCE TO KNOX COMMUNITY AND COUNCIL PLAN 2017-2021

Council's waste management services supports the attainment of Goal 1 – *We value our natural and built environment.*

The relevant strategy under the Plan is 1.1 – *Protect and enhance our natural environment.* This will be met by providing innovative ways to reduce environmental impacts such as maximising the recycling and re-use of commodities and the education programs to achieve this.

8. CONFLICT OF INTEREST

Under section 80c of the Local Government Act 1989 officers providing advice to Council must disclose any interests, including the type of interest.

Officer Responsible – Ian Bell, Director – Engineering & Infrastructure – In providing this advice as the Officer Responsible, I have no disclosable interests in this report.

Author – Geoff McMeeken, Coordinator – Waste Management – In providing this advice as the Author, I have no disclosable interests in this report.

9. CONCLUSION

In May 2018 Council, at its Strategic Planning Committee meeting, endorsed a Deed of Variation for Contract No.2109 – Receipt of Recyclables that in part required Council to enter into negotiations with SKM to develop a pricing model that will apply from 1 July 2018 to 30 June 2021.

SKM have in response presented three pricing models that range from a fixed price option to a variable price option that sees the gate fee (or potential rebate) linked to an Index that captures the sale price of the recyclable commodities.

The recommendation is to accept the fixed price option as it presents the lowest risk in terms of the certainty in the cost to provide the service as the Index proposed for the variable pricing is new so has no historical values to determine likely future trends.

10. CONFIDENTIALITY

This report is not of a confidential nature. Details of the pricing options presented are contained as a confidential report.
